## SCHEDULE OF DEMANDS FOR 1924-25.

1) The following three points relating to the submission of demands for 1924-25 ~~xxxx~~ for the vote of the Legislative Council have to be decided: (1) the Schedule of Demands, (2) the official members to be entrusted with the charge of the demands and (3) the amount of Reserve at the disposal of the Finance Department which the Council should be asked to vote.

2. Under Rule 16 (a) (5) of the Rules under the Legislative Council Regulation, the demands to be submitted to the vote of the Council and the heads of accounts to be comprised under each demand are for the present, to be as in the statement appended to the Rules. This Rule reserves power to Government to revise the classification from time to time. The statement appended to the Rules requires modification only in two respects for presenting the demands for the year 1924-25:

(i) The whole head of 7. Supervision of Mines is part of demand No.7 as given in the statement. In my note dated 23rd February 1924, I have suggested that the charges relating to Medical, Courts of Law, Police and Education transferred to this head need not, for the purpose of voting, be treated as part of the

NOTE—Contn. sheet.

Serial No.

the head 7. Supervision of Mines, but, might be considered along with the respective major heads of Medical, Courts of Law, Police and Education.

(ii) In the same note I have also suggested that a separate demand may be made on account of expenditure to be met from the Depreciation Funds -- that of the Electrical Department and that of the Kolar Gold Field Water Works.

3. The only point to be settled in regard to the addition of new demands or the readjustment of old demands is whether such alterations require formal notification under Rule 16 (a) (5). I do not think any such notification is necessary. The power reserved to Government can, I think, be exercised in presenting the Schedule of Demands itself and no previous notice is necessary. ~~This point~~ This point has a legal side and legal opinion may, ~~therefore~~ of course, be taken on it.

4 Under Rule 16 (a) the demands of Government for grants shall be made by the Member of Council in charge of the Department, provided that when the Dewan is the member in charge of the Department, he may entrust the duty to a Member of Council or to the Head of the Department or the Secretary in charge In the statement below are shown the demands and the

of the Finance Department may be fixed at Rs. 1 lakh The Legislative Council has to sanction this amount as an imprest from which the Finance Department may make advances to Departments for meeting expenditure for which no supplies have been voted by the Council but which has to be incurred and cannot wait until the Council meets again and a supplementary vote is presented to it and sanctioned. These advances are to be repaid when the Departments get their supplementary grants voted by the Council and the total Reserve is thus kept intact.

10 I generally agree

11 the only point for consideration is whether I should move for demand for Entrance Examination. I am not in favour of this both on principle and because it is very appropriate that Revd members should make this demand. The present prompting can be changed if Hon'ble Member under his powers of 16 A (5) of the Rules & it will be also useful if the Director of Agriculture and Co-operation is consulted with a view to ascertain what the Revd members themselves will move in demand. [illegible] 10/5

237 10.5.24

I agree with the 8th Member that the demand under Entrance may be also moved by the Member in charge instead of as being discussed with Existing Items 'Entrance' and 'Forestry & Agriculture' and moved by the Hon'ble Member.

10/5/24

Secretary to Govt.

10/5/24

4 The number of demands for grants and the heads of accounts comprised under each demand have been fixed after very careful consideration and included in the Appendix to the rules which has been published. If Rule 16 (a) which provides for the demands of the Government being made by the Member of Council in charge of the Department, has to be observed in the cases under reference, the heads "Industries & Commerce" and "Muzrai" have to be treated as separate demands or included in the groups for other demands. If the former course is adopted, it would result in the increase in the number of demand heads to be voted and the separation of the heads which, on account of the comparatively less expenditure incurred under them and for other reasons, it was decided, should not be treated as such but grouped with other heads comprising demand Nos. 5 and 14. Apart from the inexpediency of treating these as isolated demand heads, it does not seem desirable to increase the number of heads to be voted for purposes of demand grants and thereby weaken the powers of reappropriation vested in Government under Rule 22. If the second alternative is adopted, a readjustment of the heads, as now ~~xxxxxxx~~ classified, has to be made.

DEWAN'S OFFICE.
RECD. ON 28. MAY 1924
Reg. No. 8571

15) The distribution of departments among the Members of Council is, to some extent, arbitrary, and it may not be possible to adapt the classification of demand heads to the distribution of departments among Members and make it accord with t latter. A very rigid adherence to the rule which requires the demands being made by the Member of Council in charge, does not appear to be necessar and a slight departure from Rule 16 (a) which ~~was~~ is only a formal rule of procedure ~~x~~ not materially affecting the business or the proceedings of the Council, may be permitted in this case.

NOTE—Contn. sheet.

18) The 29.5.24

Serial No.

Orders have been issued to the Comptroller to get the Schedule of Demands printed. There is one point which it is necessary to bring to the notice of the Dewan. There are three items of expenditure on the Revenue account of our railways Worked by the Company to be considered in this connection; (1) Working Expenses, (2) Surplus Profits and (3) Guaranteed Interest.

Item No.(3) relates to the Sterling Railway Loan and it is non-votable as under Section 13 (2) (v) Interest on Loans is one of the excluded subjects. Accordingly, the item of Guaranteed Interest has been treated as non-votable. This point was not specially brought to notice in the above notes and it is therefore reported now.

The remaining two items -- Working Expenses and Surplus Profits -- are payable to the Company according to the agreement entered into with it by the Secretary of State on our behalf. They may, therefore, be brought under another excluded category viz., "matters governed by agreements now in force or hereafter to be made by His Highness the Maharaja with the Paramount Power." I do not, however, think it is necessary to do so. From their nature, these two items cannot be proposed to be altered by motions for reductions. Motions for cutting particular items under Working Expenses

The Legislative Council Regn.

Serial No.

are impossible as no details will or can be furnished for this item which is a share of the total revenue charges incurred by the Company for the whole system. Motions for reduction of the aggregate grant for Working Expenses or for Surplus Profits, if passed, cannot be given effect to as the expenditure is really not under our control and as it is also regulated by the existing contracts with the Company which cannot be changed. It is also unlikely that Members of the Legislative Council will propose reductions in these two items and if they do, we can persuade them to withdraw such motions.

It is desirable to include these two items in the list of votable items as, between them, they represent nearly Rs. 30 lakhs of expenditure and the total charges submitted to the vote of the Council will be appreciably reduced if these items are withdrawn. It is generally a stock complaint on the part of the M.L.A.s and M.L.C.s in British India that the part of the expenditure Budget subject to their voting is unduly restricted by the laws and rules relating to non-votable items. In the two items now under consideration, we have charges which, even if voted by the Council, cannot be altered by them. It is, therefore, undesirable to declare them as non-votable and ~~in consequence~~
